

Category	Grading Scale	Group 1	Group 2	Group 3	Group 4	Group 5	Group 6	Group 7	Group 8	Group 9	Group 10
Use of HTML	0-6										
Use of CSS	0-6										
Use of Javascript	0-6										
Use of Database and deploy of the website	0-6										
Idea of the website	0-6										
Overall Feeling of The Presentation	0-10										
Total Please add up the rows to calculate the total	40										

Step 1. Please fill in the blanks to grade each group. According to the grading scale, 0 means not good, and 6 means great. Please feel free to give your own group high scores.

Step 2. Please color the highest four groups with your favorite color. Then open the link in blackboard.

Step 3. Please fill in the blanks with your name and student ID. Then click your favorite four groups. After that, click submit. Then, please upload this word document through the link in blackboard.

Step 4. The instructor will calculate the four highest ranking groups as category 1 groups. The rest four are category 2 groups. Students from the category 1 group, get score 40. Students from the category 2 groups, get score 30 for this part.
